

Programmer

Personal statement

- ➡ I am a technologist by heart, and I like tinkering with toys, symbols, concepts, and viewpoints. On the other hand, I am a concerned human being. I worry about the future, and I find the current lack of liberty and suffering in the world is inadmissible. Because of that my objective is to work in a challenging and dynamic environment that allows me to help in making the world a better place by meaningful research and products.

Open Source Projects

- ➡ [DrFuzzy](#) is a nice small sample of my code. It is a plugin for the DrRacket IDE. It is also a bit outdated, but it is a full project, so it shows how I deal with the diverse aspects of software development.
- ➡ Anything else on github. It is pretty dynamic in there, since I work on several different things at a time. Feel free to browse around.

Technical Skills

- ➡ **Programming Languages:** I am proficient with Scheme and Ruby and I am familiar with C, Common Lisp, Javascript and SQL.
- ➡ **Taste:** I like to think that I have a little of that thing called [taste](#).
- ➡ **Design philosophy:** I use design practices from these sources [\[1, 2, 3\]](#) as much as I can. I try my best to grow code from data analysis, using the [paradigm](#) that fits better to the problem.
- ➡ **Programming practices:** I try hard to do my work in an [egoless](#) and [pragmatic](#) fashion.
- ➡ **OS:** Any *nix would be ok with me.
- ➡ **Platforms:** Vim, Emacs more recently, and [DrRacket](#) for all schemy things.

Recent Professional Experience

- | | |
|--------------------|--|
| 2009 | ➡ Educator and Researcher. I have been using HTDP and SICP textbooks to help colleagues develop programming skills and taste. |
| 2009 | ➡ Contractor for DevRepublic. Basically the default rails “web 2.0” contract gig, involving building a project manager. |
| 2007 - 2008 | ➡ Contractor for ELC a rails house developing a multitude of “web 2.0” services, from CMS to social networks. |
| 2007 | ➡ Developer for AuctionPal in their internal rails Auction Expert system. Mostly controller/model area of the MVC stack. Unfortunately the project was discontinued. |
| 2007 | ➡ Contractor for Ursa Minor for a Dupont green site. I was an all around developer for the site, doing stuff from the UI(mostly AJAX) to the background and cart functionality. |
